## EXPERIENCE

### CORTECH (JAN 2023-JUL 2023)

#### Web Developer

As a Web Developer at Cortech, I am an integral part of our dynamic digital agency that is revolutionizing the industry. I take pride in driving the evolution of the web with groundbreaking solutions. My role involves crafting innovative and visually stunning web experiences that exceed our clients' expectations and propel their success.

### NEW FEEL TRADING (AUG 2022-MAR 2023)

#### Web Developer

Collaborated with a team to design and develop responsive web applications using PHP, JavaScript, HTML5, CSS3, and SQL  
Implemented WordPress CMS to create and support e-commerce websites, ensuring a seamless user experience  
Developed and maintained inventory systems to manage product catalog and track stock levels efficiently  
Provided server support and maintenance, ensuring optimal performance and security of web applications

### EDI SUNSHINE ENTERPRISES (SEP 2021 - JUL 2022)

#### Software Engineer

Contributed to the development and maintenance of advanced software solutions using ASP.NET, Web Services, and WordPress  
Conducted requirements engineering, software testing, and software system analysis to ensure high-quality deliverables  
Provided exceptional customer support and resolved technical issues in a timely manner  
Worked on projects involving responsive web design, customer support, and database management systems

## **MIXED SYSTEM UAE (MAR 2020 - AUG 2021)**

Software Engineer

As a Software Engineer at Mixed System UAE Company, I have played a crucial role in developing and maintaining advanced software solutions. With expertise in WordPress, WooCommerce, eShops, reservation systems for dentists using ASP.NET 4.8 framework, as well as digital menu boards for restaurants using .NET 4.8 and SQL Server, I have made significant contributions to the company's technological advancements. Leveraging my skills, I have successfully delivered high-quality software products, ensured efficient system performance, and provided exceptional support for WordPress-based websites, online stores, reservation systems for dentists, and digital menu boards for restaurants. My contributions have been integral to the success of Mixed System UAE Company

## **QUARTET JORDAN (MAR 2017 - JUN 2018)**

Programmer

I was part of a team of programmers involved in developing web applications using ASP.NET WebForms, SQL Server, HTML, CSS, Bootstrap, and JavaScript. I contributed to the design and implementation of data-driven applications. Working collaboratively with the team, we successfully delivered efficient and high-performing applications. I played a role in executing projects and achieving the team's goals in delivering exceptional software solutions.
